

**UPDATED: 4-16-2026 8:00AM**

## **NOTICE OF ROAD CONDITIONS**

As of 8:00A.M on April 16, 2026, all Town of Oneida roads that were previously closed due to flooding are now open to traffic.

However, with continued rainfall and additional rain forecasted, there remains a possibility of rising water and localized flooding on roadways.

Motorists are advised to use caution when traveling, particularly in low-lying areas, near bridges, and on roads prone to flooding. Water levels and road conditions may change quickly, and temporary closures may occur again if water levels rise.

Please do not drive through flooded roadways and follow any posted road closure signs.

The Town will continue to monitor conditions and provide updates as necessary.

*Thank you for your cooperation and understanding.*
